HOME DEPARTMENT.

PUBLIC.

*Calcutta, the 24th December 1910.*

Nos. 5475-5507.—The Governor-General in Council has recently had under consideration the subject of the creation of an additional Membership of the Executive Council of the Governor-General, with the appropriate Secretariat and clerical staff, to deal, primarily, with the subjects of education and local self-government. In addressing the Secretary of State on this question, Lord Minto's Government issued their proposals, firstly, on the administrative and political expediency of making better provision for the conduct of public business in his branches of work where mentioned and secondly, upon the necessity for effecting relief to the Home Department. Regarding it as incontestable that relief to the Home Department, was needed, they came, after careful deliberation, to the conclusion that the form in which it could best be given was by dividing the present work of that department into two, one part of the work to be dealt with by the existing department—the constitution of

which would be revised—and the other by a new department, which would be charged primarily with the administration of educational business, but would also take over certain other branches of work with which the Home department has hitherto dealt, including all matters connected with local self-government.

2. The extreme importance of the subject of education needed no demonstration. The extensive reforms, which were initiated by Lord Curzon's Government, were still far from complete, although much had been done in every province to give effect to them, and schemes of improvement in every class of institution from the Universities downwards had been formulated, of which many had been put into execution, while others were awaiting the provision of the necessary funds. There were again abundant indications both in the debates in Council, in the Press, and in the reports of Local Governments, of a genuine and widespread desire for improved technical instruction to facilitate the growth of indigenous trades and industries, which it was impossible to ignore; and, indeed, the Governments of all the major provinces had already devoted considerable attention to the subject and steps had been taken in almost all to make a beginning in that direction. The subject, again, of primary education; the question how far it should be generalised free of cost; the training of teachers; the provision in the educational system of facilities for moral instruction; The development in it of influences which lead towards the better formation of character; the question how far religious instruction should be permitted;—these, as well as the prosecuting of the other reforms already mentioned, presented problems of the first magnitude, the successful solution of which would involve extensive expenditure both from Imperial and Provincial and Local funds prolonged over a series of years and incurred in accordance with a wisely planned and consistent educational policy. To assist in solving these problems and to direct that policy was a task which, in the opinion of Lord Minto's Government, might fairly claim the attention of a special department.

3. The Government of India thought that with educational business the despatch of that connected with local self-government might suitably be combined, since municipal and local bodies are responsible for a small part of the public expenditure on education. Besides these subjects, they proposed, in order to afford an adequate degree of relief to the Home department, to hand over to the new department a certain number of miscellaneous heads of business including Sanitation, Archaeology, Boats, Records, Meteorology, and a few subjects of minor importance now dealt with in the Public branch of the Home department. To these were to be added all business connected with museums now dealt with in the Department of Commerce and Industry.

4. Such is a brief summary of the grounds upon which Lord Minto's Government based their proposals. As regards the staff for the new department they suggested that besides the Member in charge, the department should have a Secretary on a pay of Rs. 3,000 a month, a Joint Secretary on Rs. 2,500 a month and an Assistant Secretary on Rs. 1,900 a month. In making these proposals for the superior staff, it was explained that the Government of India regarded them as provisional only, and that in their opinion they should be subject to re-consideration in the light of the experience which would be gained hereafter of the special requirements of the new department. In particular, they did not desire to tie their own hands or those of their successors by declaring that the posts of Secretary or Joint or Assistant Secretary should be definitely assigned to any particular services, as the creation of the new department was an experiment, and its novelty justified the Government of India in retaining from the outset a full measure of freedom to modify the constitution of the staff in such manner as might seem best calculated to fulfil the objects with which the department was formed.

5. It was further proposed that the Imperial Record office, as at present existing, should be a sub-department of the new department; that the Office in charge of the Records should continue to discharge under the duties of Assistant Secretary in the Books and Publications branch, which he at present performs under the Home department; that the post of Director-General of Education should cease to exist, and the staff of his office, consisting principally of a bureau of the educational information, which was charged with the duty of collecting information on educational subjects for the assistance of the Government of India and of the provincial departments of instruction, should be absorbed in that of the new department. The clerical staff of the new department was at the outset to be provided

entirely by transferring to it a suitable number of supernumeraries, subalterns and messals from the parent staff of the Home department, and the only new post that was at present required in connection with this part of the scheme was that of Registrar, who, it was proposed, should receive a pay of Rs. 800 a month in accordance with the rate recently sanctioned for Registrars of other departments of the Secretariat.

3. The Secretary of State having expressed of these proposals subject possibly to revision after two or three years' experience, the Governor-General in Council is pleased to direct that the Department of Education, in the charge of which the Hon'ble Mr. S. H. Butler, Esq., C.S.I., C.I.E., has already been appointed, shall be constituted forthwith, and that all work pertaining to the subjects detailed in the statement annexed to this resolution shall, from the date of these orders, come under the supervision of the new department.

3. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to select more than one centre. No candidate will be allowed to change the place of examination entered in his application, which must invariably be the place where he is employed or otherwise resides, or should it not be a residence, the place nearest to where the examination is held. A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination cancelled.

4. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the Written examination in any of the subjects mentioned at any other place, if it is intimated that not fewer than thirty candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the holding of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 28th January. Ordinarily, however, only one place will be constituted a centre for each district.

5. The oral and practical examinations in each subject as required there will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

*N.B.—If passed against disappointment in the case of each of the Oral and Practical examinations or may be held before the Written examination candidates are recommended to refer to Part I-B of the Port St. George Gazette from time to time.*

6. Candidates whose examinations, either written or oral and practical, cannot be arranged for at any place must, if their own system, proceed in Madras or to the nearest centre where they are held in the subjects in which they appear.

7. Heads of institutions are requested to see, before the signature at the foot of the application is signed by them, that their institution has been recognized by the Director of Public Instruction, Madras, as fitted to impart instruction in the Technical subjects and for the grades in them brought up by their pupils.

*N.B.—Heads of institutions recognized for General Education only should not sign the certificate at the foot of the application form filled in by any of their pupils meaning to sit for any of the Technical examinations.*

8. All pupils coming from the same institution must select the same centre, and the applications of all of these should be forwarded together (along with a covering letter stating the number of applicants) by the head of that institution, no application of any private candidate being enclosed with these applications.

9. Each candidate must, wherever the syllabus requires it, submit, before the 31st January, the necessary drawings, plans, surveys, field books, estimates, or other "certified works". Each of the drawings, etc., submitted must have entered on it the name of the candidate, the subject and grade of examination for which he appears, and the names of which he appears, and must be certified to be his own original work by the head of the institution or other to which he belongs, by an officer of the Public Works Department not below the rank of Superintendent, by a District Board Engineer, by the Engineer of the Corporation of Madras, or by an Engineer of any Railway Company.

Candidates are specially warned that no certified work will be received by examination unless the certificate of authority is in such case quite satisfactory, and specifies clearly the period of time occupied in the execution of such work and unless the examiners are satisfied as to the identity and qualifications of the persons granting the certificate. Further, if any suspicion attaches to any certified work submitted by pupils from Technical Schools, the Commissioner will be compelled to recommend to the Director of Public Instruction the withdrawal of the departmental privileges enjoyed by the schools. Private candidates, whose certified works are in any way suspected by the examiners, will be liable to have their examinations cancelled and also to be debarred from appearing for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit.

It must be particularly noted that the drawings, etc., of each candidate should be submitted in a separate roll for each subject and for each grade (i.e., the drawings, etc., for a number of subjects should not be rolled up together), and that the drawings, etc., of a number of candidates should not be sent in one and the same roll. Also, on the outside of each roll for each subject, each candidate should enter the following particulars (i.e.):—

- |                           |  |
|---------------------------|--|
| (1) Name of candidate,    | (4) Grade, and                             |
| (2) Place of examination, | (5) Total number of drawings in each roll. |
| (3) Subject,              |  |

As the applications are to be kept in the office and the drawings, etc., have to be forwarded to the examiners, the application itself should be sent in a separate cover and not rolled up with the drawings, etc.

A candidate who failed, or having applied, did not appear, at a previous examination, must submit fresh drawings, etc. The drawings, etc., submitted will on no account be returned.

10. Candidates must send in their applications made out in English in printed form in that they reach the Commissioner's Office on or before the 31st January, after which date no applications will be received. One form of application should be used by each candidate, although he may bring up several subjects and come up for different grades.

11. Candidates in the military should lodge the required application forms from the Treasury at the place in which they are resident or at the district to which they belong. Candidates who are residents

of Madras should apply for application forms at the Office of the Commissioner for Government Examinations, III College, Mangalore, and not to the Collector of Madras.

*N.B.*—No notice will be taken of any application from candidates in the medical requesting to be supplied with application forms from this office.

12. The following is the scale of fees to be paid by candidates for admission to the examinations:—

	Elementary	Intermediate	Advanced
For each subject	Rs. 3	Rs. 5	Rs. 10

*N.B.*—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

13. The prescribed fee must be paid in every case into a Government Treasury, or, if at Madras, into the Bank of Madras, and the receipt given by the Treasury Officer or the Bank of Madras is attached to the application, which must in every case reach the Commissioner's Office on or before the 31st January. It is an agreed and the fee is retained in the Commissioner's Office, whether sent in cash or by Post Office order. An application will be registered when it reaches the Commissioner's Office by the date prescribed.

*Note.*—At Madras, in the case of all pupils, the fee should be collected by the Bursar and sent in a lump sum to the Bank of Madras together with two lists of the pupils, one of which will be returned by the Bank and the other signed and countersigned by the Bursar. The latter list should be forwarded to this office along with the application of the candidate. The necessary forms for this purpose will be supplied by the office to Bursars on application.

14. Each application should be sent direct to the undersigned, post paid, superscribed and addressed as follows, the receipt for the fee paid being severally retained by it:

[Candidates are warned that the application itself should not be enclosed with any drawings, plans, surveys, field books, estimates, or other "printed works" that may be sent, but should be submitted in a separate cover.]
